EXPERIENCE

Walless – Internship

02/2024–06/2024

Full Stack

- GraphQL, Nextjs, MUI, Reactjs
- Building frontend from design using MUI library
- Query API to display data through axios
- Using context and state hook for state management

Tikera – Collaborator

06/2024–07/2024

Frontend

- Reactjs, MUI, GCP
- Convert figma design to web using MUI and implementing a little animation
- Implementing state management through context provider and reactjs hooks
- Structuring and organizing hooks, components and api call

Automate solutions – Internship

06/2024–10/2024

Backend

- FastAPI, Django, Docker, Heroku, Postgres, S3, Python
- Writing api for microservice operation (fastapi)
- Writing api for front-end side (logging, logout, user-management,...)(django)
- Containerize, writing ci pipeline and deploy application
- Connecting and retrieving from S3

Vocake

10/2024 – 4/2025

Frontend

- Reactjs, ReactNative, tailwind, MUI, EC2, Github actions Typescript, Nextjs
- Building web and mobile frontend through reactjs and react native
- Partly responsible for deploying ec2 aws and ci/cd pipeline
- Implementing user management, flashcard animation,....

Full Stack

- Reactjs, Typescript, OpenAI, FastAPI, Strawberry, DaisyUI, Preact
- Fix UI (daisyUI) from design, implementing different reactjs components fetching api through graphql
- Doing research about model context protocol (MCP) in company's chatbot of RnD department and reimplement and integrate to current project

EDUCATION

UIT | 2021–2025

Ecommerce

- GPA: 3.08
- High quality program

PROGRAMMING
LANGUAGES AND
FRAMEWORK

JAVA	Spring Boot
JAVASCRIPT	Nestjs, Express, GraphQL, Reactjs, Nextjs, React Native
PYTHON	FASTAPI, Strawberry, Django, asyncio
TYPESCRIPT	
PHP	Laravel

COMPETITION &
COURSES

CARDANO HACKATHON
AWS CLOUD PRACTICIONER OF CODEGYM
AI HACKATHON 2025
