About Me

A developer who is dedicated to growth and developement. Willing to try out and fail, experiment and improvement.

Tech Stack

- **Programming language**: JavaScript, Typescript, Python, Swift, Nodejs
- **Framework:** Reactjs, React Native, FastAPI, NestJS, Django, SwiftUI, Graphql
- **UI:** tailwind, MUI
- **Database:** Postgres, Mysql
- **Cloud/Devop:** AWS (EC2, lightsail, S3), Docker, CI/CD

Language

- Fluent in English

Education

E-commerce   2021-2025

University of Information Technology - UIT

Experience

WALLESS (INTERNSHIP)   02/2024-06/2024

Frontend developer

- Tech-stack: GraphQL, Nextjs, MUI, Reactjs
- Building frontend from design using MUI library
- Query API to display data through axios
- Using context and state hook for state management
- Working with nextjs

AUTOMATE SOLUTIONS (INTERNSHIP)   06/2024-10/2024

Backend developer
https://www.automate-solutions.net/

- Tech-stack: FastAPI, Django, Docker, Heroku, Postgres, S3, Python
- Writing api for microservice operation (fastpi)
- Writing api for front-end side (loging, logout, user-management,...) (django)
- Containerize, writing ci pipeline and deploy application
- Connecting and retrieving from S3

TIKERA (COLLABORATOR)   06/2024-07/2024

Frontend Developer
https://tam.tikera.net/

- Tech-stack: Reactjs, MUI, GCP
- Convert figma design to web using MUI and implementing a little animation
- Implementing state management through context provider and reactjs hooks
- Structuring and organizing hooks, components and api call

VOCAKE (SIDE-PROJECT)   10/2024 - Present

Developer
https://vocake.tech/en

- Tech-stack: Reactjs, ReactNative, tailwind, MUI, EC2, Github actions Typescript, Spring boot
- Building web and mobile frontend through reactjs and react native
- Partly responsible for deploying ec2 aws and ci/cd pipeline
- Implementing user management, flashcard animation,....

LADAGO BOOKING HOTEL MOBILE APP - REACT NATIVE (SCHOOL PROJECT)

Mobile developer
https://github.com/Napeno/LadagoApp

- **Tech-stack: React native, xcode, firebase**
- Developing mobile app using react native
- Converting design from figma, enhancing user experience
- Calling api and fetching data from firebase
- Integrate redux library managing multiple states in the app

Courses

- AWS cloud practicioner of codegym
- Master Java, Spring 6 and Spring Boot 3 with JDBC, JPA, Security, Docker and Microservices with Telusko - Udemy

Competition

- CARDANO VIETNAM HACKATHON 2024

ECOMMERCE APP - REACT NATIVE (SCHOOL PROJECT)

Mobile developer
https://github.com/henryhoangduong/React-Native-Ecommerce

- **Tech-stack: React native, xcode,**
- Developing a small ecommerce app
- Implementing user management, browsing and adding product to cart
- Integrating context api from reactjs

LEARNING MANAGMENT (SCHOOL PROJECT)

Full stack

- **Tech-stack: Reactjs, Tailwind, Supabase, Nestjs, TypeOrm**
- Analyzing project requiremnt, design database and logic
- Writing API through Nestjs
- Writing Frontend in Reactjs and tailwind

ECOMMERCE (SCHOOL PROJECT)

Full stack

- **Tech-stack: Reactjs, Laravel, Mysql**
- Analyzing project requiremnt, design database and logic
- Writing API through Laravel
- Writing frontend in Reactjs and boostrap

SPRING BOOT PROJECT - SMALL PROJECTS
